***Allowable Subject Matter***

1. Claims 1-22 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

Applicant has amended claims 1-20 and added claims 21-22. Upon further consideration and comparison with prior art of record (closest reference, Kawasaki - US 5,329,549), claims 1-22 are allowed. Particularly, prior art of record discloses compensating for Doppler frequencies before the signal is inputted into the memory. Prior art of record, taken individually or collectively, fails to suggest a motivation for incorporating in such a method and apparatus, as claimed, the compensation of Doppler frequencies after the signal is output from the memory, in independent claim 1 and similarly in independent claims 7, 12, 16, 20, 22 (claims 2-6, 8-11, 13-15, 17-19, 21 depend therefrom). Thus, claims 1-22 are found to be novel and unobvious over prior art of record.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
